

AHMAD HASSAN

Software Engineer

📞 03104012003 @ ahmad.hassan3935@gmail.com 🌐 <https://github.com/Mian-Ahmad-Hassan> 📍 Lahore, Pakistan

SUMMARY

- Unleashing 4 years of hands-on expertise in commercial application and software development as a seasoned ROR engineer, complemented by proficient experience in React.js.
- Igniting the software industry with an unwavering passion for driving innovation, conquering challenges, and embracing continuous learning for personal growth. I bring a wealth of experience leading projects, orchestrating dynamic collaborations, and mastering seamless communication to ensure awe-inspiring project outcomes.
- On the hunt for a career opportunity to leverage my extensive training, skills, and prowess, I aim to leave an indelible mark on the industry's vibrant landscape while staying abreast of market trends and emerging technologies.

EDUCATION

B.S. Computer Science

University of Lahore

📅 2017 - 2021 📍 Lahore, Pakistan

EXPERIENCE

Principal Software Engineer

Tkxel

📅 10/2025 - Present 📍 Lahore, Pakistan

- Led end-to-end design and development of scalable applications using Ruby on Rails, React, and Next.js, ensuring high-quality and timely delivery.
- Defined system architecture and made key technical decisions to improve scalability, performance, and maintainability across projects.
- Mentored and guided engineering teams, promoting best practices, code quality, and effective collaboration.
- Partnered with stakeholders to translate business requirements into robust, future-proof technical solutions.

Senior Software Engineer

TechieMinions

📅 09/2024 - 10/2025 📍 Lahore, Pakistan

- Developed and led Ruby on Rails projects independently, ensuring timely delivery and high-quality results.
- Managed and mentored team members, fostering collaboration, code quality, and knowledge sharing.
- Improved client satisfaction by tailoring solutions to business needs and delivering scalable applications.
- Adopted and applied emerging technologies to enhance performance, maintainability, and system reliability.

Software Engineer

Cloudpacer

📅 03/2023 - 09/2024 📍 Lahore, Pakistan

- Developed and led Ruby on Rails projects independently, ensuring timely delivery and high-quality results, while also contributing to frontend tasks using React.js.
- Improved client satisfaction by tailoring solutions, updating skills by using technology enhancements.

Software Engineer (ROR)

Viral Square

📅 12/2021 - 03/2023 📍 Lahore, Pakistan

- Started as an intern, swiftly promoted to Associate Software Engineer, afterwards served as a Software Engineer, adeptly leading critical projects solo from inception to completion.
- Oversee all project facets, including requirements gathering, system design, coding, testing, and deployment, while ensuring transparent communication with stakeholders for seamless progress updates

Node JS Intern

Azure Innovations

📅 09/2021 - 07/2021 📍 Lahore, Pakistan

- Completed a three-month Node.js internship, collaborating within a skilled team to contribute to backend development, participate in code reviews, bug fixing, and integrate with frontend developers for cohesive web application delivery.

STRENGTHS

Strong problem-solving and analytical skills

Mastering the art of problem-solving, I wield critical thinking and ingenuity to conquer complexities and craft top-notch software solutions

Adaptability

Adapting to change with resilience, I divide projects into modular parts for efficient troubleshooting, ensuring rapid resolution if needed.

SKILLS

Programming

Ruby on Rails	React JS	Node JS	
JavaScript	Solidus	HTML 5	CSS
Bootstrap	Tailwind		

Databases & Servers

AWS	MySQL	MongoDB	Postgres
Heroku	Azure		

PROJECTS

Signal

📅 2025 - Present

Signal is a web platform for a security services company, providing a modern, scalable digital presence to showcase and support its operations.

- Designed and implemented scalable architecture using Ruby on Rails and Next.js.
- Developed and optimized frontend and backend for performance, SEO, and maintainability.

Chiirp

📅 2024 - 2025

Worked as an AI Specialist Software Engineer, where I **integrated AI-driven Voice Call Agents and Message AI Agents** into the platform to automate and streamline customer communication.

- Successfully **deployed AI communication agents** that provided real-time, intelligent responses to users, reducing manual effort, improving response time, and significantly enhancing client satisfaction and engagement.

IGNTD

📅 2024

Worked remotely with **A2Z Enterprises LLC, MA**, developing a scalable platform for cloud-based services using **Azure, GCloud, and AWS**. Built the backend with **Ruby on Rails (ROR)** and the frontend with **React**, delivering a seamless user experience and robust cloud integration.

- Delivered a robust online platform that streamlined addition recovery services and enhanced accessibility for users globally.

Cultural Candy

📅 2022

Worked remotely with **Travel's City Inc LLC, MA**, utilizing **Azure, GCloud, and AWS** for a scalable multi-cloud platform. Built with **Java Spring** (backend) and **React** (frontend) to deliver a dynamic cultural tourism experience.

- Delivered a scalable platform that streamlined cultural candy sales and enhanced global customer engagement

STRENGTHS

Accountability
I embrace accountability and growth by taking ownership of my mistakes, leveraging them as valuable learning experiences to prevent their recurrence

KEY ACHIEVEMENTS

Award for Outstanding Dedication
Received prestigious recognition for unwavering commitment and exceptional results in a project, showcasing dedication that inspired team members and contributed to the project's success.

Award for Mentorship and Training
Received accolades for exceptional mentorship and training provided to a talented fresh graduate, empowering their growth and success in their role.

INTERESTS

Cricket
Cricket enthusiast with deep knowledge, actively engages in matches, embodies sportsmanship and teamwork.

Chess
Passionate chess player honing strategic thinking and mental discipline for enhanced productivity.
